

=====

AVAILABILITY

Available to Customers who do not meet the requirements of the availability and character of service clauses of the residential rate or who desire multiphase service with a peak load of less than 100 kW. If demand exceeds 100 kW for any one month in a 12 month period, may be moved to General Service Medium rate at the Cooperative's sole discretion.

CHARACTER OF SERVICE

Alternating current, 60 Hz (cycle), single phase or multiphase at available secondary voltages not to exceed 480 volts, served through a single meter.

MONTHLY RATE

Service Availability Charge

Urban	\$39.00
Rural	\$44.00

Demand Charge

First 10 kW per month	\$2.00
Over 10 kW per month, per billing kW or part thereof	\$9.25

Energy Charge, per kWh	\$0.106500
------------------------	------------

FACILITIES CHARGE

As established by the Line Extension Policy - Section 8 of the Cooperative's Rules and Regulations.

=====

MINIMUM BILL

The applicable Service Availability Charge plus any facilities charges or line extension charges.

BILLING COST ADJUSTMENTS

Energy sales under this schedule are subject to all billing adjustments including but not limited to the Power Cost Adjustment (Schedule PCA) and the Property Tax Adjustment (Schedule PTA).

DETERMINATION OF BILLING DEMAND

The billing demand shall be the peak monthly demand as established each month by an indicating or a recording demand meter for 15 consecutive minutes and may be adjusted for power factor and shall be rounded to the next full kW.

POWER FACTOR

If the Customer's power factor is found by test to be less than 90%, the demand for billing purposes shall be the measured demand increased by 1% for each 1% which the power factor is less than 90%. Power factor may be tested at periodic intervals determined by the Cooperative, but not less than once per calendar year. The power factor shall not be applied to demands of less than 10 kW.

Power factor correction equipment shall be installed by the customer at the customer's expense and shall be so connected that it will connect to and disconnect from the energized conductors simultaneously with the motor or power equipment.

CONDITIONS OF SERVICE

All motors having a rated capacity in excess of 10 (ten) horsepower must be three-phase. All motors in excess of 40 (forty) horsepower will be equipped with starting equipment which limits starting current to 3 (three) times running current (Soft Start). Both power and lighting will be billed at the forgoing rate and served through a single meter. All motors shall be equipped with suitable under-voltage and overload protection in all current carrying conductors as

recommended by the National Electric Code. The motors shall be equipped with the necessary equipment to protect it in the event any multiphase circuit should single phase. Highly fluctuating loads: Customer will not employ or utilize any equipment, appliance or device which adversely affects the Cooperative's service to other customers. Where the customer uses electric service for the operation of hoists, welding machines, X-ray machines, electric furnaces or other equipment with intermittent or rapidly fluctuating load characteristics, which adversely affect the voltage regulation or impair the Cooperative's service to other customers, the customer operating the above equipment may be required to install and maintain at the Customer's expense suitable apparatus to reasonably limit the effect of such fluctuation and/or the Cooperative may adjust the billing basis provided in the Rate Schedule or Service Agreement to compensate for the necessary power capacity required to serve such equipment.

PAYMENT

All bills for service are due and payable in accordance with the Cooperative's Rules and Regulations.

OTHER TERMS AND CONDITIONS

See Special Conditions of Rules & Regulations and conditions applying to Electric Service.
