

WHEATLAND ELECTRIC COOPERATIVE, INC.

All Territory

Schedule 24 – CEVC

Experimental Commercial Electric Vehicle Charging Station

Page 1 of 2

AVAILABILITY: Available to commercial electric vehicle charging stations, either for retail station service for the purpose of resale to end-use customers charging vehicles, or for direct sale by Wheatland Electric Cooperative, Inc. (Cooperative) to end-use Customers charging vehicles.

This rate is experimental and can be closed to new customers at any time by action of the Cooperative board and modified for existing customers with 60-days' notice to existing customers.

Not every Cooperative owned charging station will offer both level 2 and level 3 service.

CHARACTER OF SERVICE: Alternating current, 60 Hz (cycle), single phase or multiphase at available secondary voltages not to exceed 480 volts, served through a single meter for sale to third party owned retail station service for the purpose of resale, or level 2 or level 3 charging service for direct sale by the Cooperative through Cooperative-owned level 2 or level 3 charging equipment directly to end-use Customers charging vehicles where the Customer's vehicle is equipped to accept the types of charging plug-in technology owned by the Cooperative.

MONTHLY RATE:

Retail Station Service (third party): Third Party in Cooperative's territory:

Service to Level 2 Charger

(where available)

\$43.40, Service Charge plus

\$0.0566 per kWh and

\$10.43 NCP KW Demand or Part Of

Service to Level 3 Charger

(where available)

\$75.11, Service Charge plus

\$0.0867 per kWh and

\$10.94 NCP kW Demand or Part Of

Cooperative Direct: Direct Sale by the Cooperative to End-Use Customers and Used to Charge Vehicles using Cooperative-Owned Charging Equipment:

Service from Level 2 Charger

(where available)

\$0.1091 per kWh

Service from Level 3 Charger

(where available)

\$0.1690 per kWh

SESSION CHARGE: For direct sales by the Cooperative to end-use Customers charging vehicles, in addition to all charges listed above, the Cooperative may assess a session charge. Where assessed, the charge shall be a charge per minute during time when vehicle is plugged into charger and is preventing other vehicles from being able to be charged. Session Charge:

Service from Level 2 Charger

(where available)

First 2 hours: no charge

Over 2 hours: no charge

Service from Level 3 Charger

(where available)

First 30 minutes: no charge

Over 30 minutes: no charge

Determination of Billing Per kW Demand: The billing demand shall be the non-coincident peak (NCP) monthly demand per kW as established by an indicating or recording demand meter for 15 consecutive minutes and may be adjusted for power factor and shall be rounded to the next full kW.

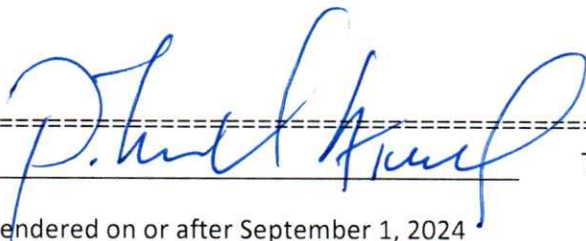

BILLING COST ADJUSTMENTS: Both retail station service and direct sales by the Cooperative to end-use Customers charging vehicles are subject to all billing adjustments including but not limited to the Power Cost Adjustment (Schedule PCA) and the Property Tax Adjustment (Schedule PTA).

TERMS AND CONDITIONS: Service shall be rendered under the Cooperative’s Rules and Regulations.

PAYMENT: All bills for service are due and payable in accordance with the Cooperative’s Rules and Regulations.

Capital Credit Allocations and Retirement of Patronage: For a Cooperative member to receive allocation and retirement of capital credits for purchasing electric service at the Cooperative’s electric vehicle charging stations, the member must contact Charge Point and document that they are a member of Cooperative.
