

AVAILABILITY

For Private Security Lighting services, the cooperative will install, own and maintain all necessary equipment in accordance with its standard specifications, at the voltage and current of cooperative’s established distribution system for such service.

Available for outdoor lighting service, metered or unmetered, to individual members located within the cooperative certified area, where secondary service can be supplied from existing facilities of the Cooperative.

RATE

The customer shall pay the Cooperative each month for lighting service at the following rates:

Unmetered Service

Flat rate per light per month for lights of listed wattage or for similar lights within a range of approximately equivalent lumens as follows. The cooperative reserves the right to replace light components with equivalent lumen capabilities. For the supply of electricity, installation and maintenance of the lighting service per the cooperative standard specifications and lamp renewal as required the member shall pay the cooperative each month at the following rate:

CATEGORY 1 5,000 – 10,000 LUMENS LED	\$7.89	20 kWh/month
CATEGORY 2 10,001 – 15,000 LUMENS LED	\$12.05	30 kWh/month
CATEGORY 3 15,001 – 20,000 LUMENS LED	\$16.34	44 kWh/month
CATEGORY 4 20,001 – 50,000 LUMENS LED OR MH FLOOD	\$33.24	110 kWh/month

Metered Service

Flat rate per light per month for lights of listed wattage or for similar lights within a range of approximately equivalent lumens as follows. The cooperative reserves the right to replace light components with equivalent lumen capabilities. For the supply of installation and maintenance of the lighting service per the cooperative standard specifications and lamp renewal as required the member shall pay the cooperative each month at the following rate:

BILLING COST ADJUSTMENTS

Energy sales under this schedule are subject to all billing adjustments including but not limited to the Power Cost Adjustment (Schedule PCA) and the Property Tax Adjustment (Schedule PTA).

CONDITIONS OF SERVICE

The forgoing rates are predicated upon a total investment by the Cooperative for the installation not in excess of one pole with anchor and one photo-electric controlled LED light fixture of the designated size attached.

Service shall be rendered under the Cooperative's Rules & Regulations.

Lighting connected after the effective date will be provided dusk to dawn controlled by photo-electric relay. Separate isolated transformers will not be installed for lighting under this schedule. The customer shall provide at no cost to the cooperative all necessary permits, rights of way, excavations and paving cuts required for installation of the lighting system(s).

Maintenance of the cooperative owned equipment and fixture renewals will be performed during normal working hours within a reasonable period following notification by the customer of the need for such service. Duly authorized representatives of the cooperative shall have the right of ingress and egress at all reasonable hours for installation, maintenance and inspection of required equipment. No maintenance service will be provided by the company past the meter on ornamental lighting.

It shall be the customer's responsibility to notify the cooperative when the lighting system is not working.

STANDARD SPECIFICATIONS

Lighting service connected after the effective date below will include the following material: (1) 35 ft wooden pole, (1) guy and anchor, 150 ft span of overhead or underground conductor (excluding conduit, trenching cost, and trenching labor), (1) pole attachment, (1) fixture as described above and labor to install except as excluded. Line extensions to serve beyond 150 ft or in excess of the material allowance as described above will be handled under the terms of the cooperative's line extension policy. The cooperative shall provide up to #4 triplex. Anything above that will be paid for by the customer. The customer shall reimburse the cooperative for all labor and material in excess of that described above. The required material shall be specified by the cooperative.

Should a customer request new service for a decorative or other type of lighting fixture other than that described above, the light shall be installed on the customer's side of the meter and the customer shall own and be responsible for all repair labor and materials.

Cooperative reserves the right to not repair or replace a light type which has been closed to new customers.

SPECIAL PROVISIONS

It is the responsibility of the home-owner's association, unincorporated communities, governmental agency or any other governing group to pay the monthly charges as per terms and conditions of the contract or the lighting service will be discontinued.

TENANT REQUESTING LIGHTING

The landlord as the property owner must agree and sign the 3-year contract. The tenant must be a customer and sign the membership application. The landlord reverts must be in force.

PAYMENT

In accordance with the Cooperative's Rules & Regulations.

CONTRACT PERIOD

The contract period shall not be less than three years and thereafter on a month to month basis. Any changes on an installation after it is originally completed will be the obligation of the customer. If service is terminated, per customers request, before the three-year contract period elapses, the customer must pay the prorated balance of the contract amount.

OTHER CONDITIONS

See Special Conditions of Rules & Regulations and conditions applying to Electric Service.
